BIAMP MRB-M-X400-T-SERIES

MEDIUM MEETING ROOM BUNDLE WITH TESIRAFORTÉ X 400, BLACK TABLE MICROPHONE, AND CHOICE OF LOUDSPEAKERS

This bundle provides a complete audio solution for medium sized meeting rooms of up to 388 sq ft (36 sq m), including everything required to outfit a conference room to enable clear communication in every meeting.

The package includes Biamp's TesiraFORTÉ X 400 meeting room DSP, incorporating processing and network connectivity into a single device. It also features Biamp Launch to ensure that room deployments are lightning fast and 100% consistent, making for a fully optimized collaboration experience every time. Parlé microphones keep table clutter to a minimum and blend into the room, while still providing crystal clear audio pickup and LED mute indication to room users. Eight available loudspeaker options are tuned for voice reproduction to deliver superior audio clarity in a range of conferencing installations.

FEATURES

- Zero programming, and automated tuning with Biamp Launch
- Custom AEC enhances remote participant experiences
- Clear audio when multiple parties are talking
- Noise Reduction minimizes problem sounds such as air conditioning
- Speakers tuned for voice reproduction in conference room applications
- Microphone mute buttons and LEDs sync with UC software
